Woofelines

<http://christinevanwert.blogspot.com>

I, Christine E VanWert, of the Woofelines Flyball Team #455, declare myself to be a candidate for the North American Flyball Association Board of Directors.

If elected, I pledge to the delegates to do everything that is within my power to promote and expand the sport of Flyball. I will treat each dog, each competitor, each team or club, and each Region as equals without favor or prejudice.

I will approach each problem or issue with an open and curious mind. My vote will be predicated on hard evidence and principle. If elected, my responsibility is to represent the best interests of Flyball for all Regions and all teams/clubs.

NAFA's greatest strength is in a system of self-governance that permits expression of opinions from all points of view. The greatest challenge that NAFA faces today is bringing together opposing points of view on any issue that impacts Flyball and reaching a compromise that satisfies all.

People are every bit as important as the dogs are to Flyball. A team is like a family. You can achieve much more by working together than you can by working alone.

If it takes a village to raise a child, it takes teamwork to create a flyball organization. If elected, I will work together with the NAFA Board and the delegates to build, expand and promote NAFA and insure flyball will continue into the future.

Sincerely,

Christine E VanWert
